

University : _____

Thematic Food safety food processing entrepreneurship

Introduction, context

Synthesis of the rationale behind the strategy for data collection:

In the frame of this project, and for developing a module on this thematic,

- What do we need to know? (→ surveys objectives)
- From where and who can we get the information?
 - o Bibliography, previous surveys...
 - o Target population? Groups of stakeholders?
- How can we get access to these stakeholders?
- What surveys modality(ies) can we implement towards each stakeholders?
- What are our constraints?

Overall objective of the assessment :

Data collection strategy

	Activity « title »	Specific Objectives	Target population	Methodology				Responsibilities				Means / Conditions / Risks / Possible Bias / Remarks
				Modality (Sample)	Type of data	How to access target population?	Deadlines	Coordination / supervision	Who does the tool / guideline / questionnaire?	Deadlines	Data treatment and analyses	
1	Institutional aspects											
2	Policies and references documents collection											
3	Economic and	Define what is	Meat	Focus								

Tempus Project – frame for next steps - proposition

	Activity « title »	Specific Objectives	Target population	Methodology				Responsabilities				Means / Conditions / Risks / Possible Bias / Remarks
